

Date of Award (MM/DD/YYYY):

Date of Report (MM/DD/YYYY):

Principal Investigator(s) & Affiliation(s):

Title of Project:

A. Summary: For each of the specific objectives, aims or testable hypotheses of the grant, please succinctly summarize the key findings and results. Please indicate whether you succeeded in achieving your goals and how the work impacts animal health.

B. Impacts: VCCIS places high importance in funding research that has an impact on clinically-applicable, translational research in veterinary and comparative immunology. We are grateful that you have completed your project with VCCIS funding and are keen to capture information on the full scope of this impact. We kindly ask that you provide as much information as possible that demonstrates your research's impact pertaining to any of the items below.

Aleetings Attended Aleetings in which data from the VCCIS-funded project were presented (poster verbal) Falks / Seminars Falks or seminars leveraging VCCIS funding; please make note if they were invited	Papers Papers submitted, under review, or published - primary research or reviews
Talks / Seminars Talks or seminars leveraging VCCIS funding; please make note if they were invited	rupers submitted, under review, or published - primary research or reviews
