

Grant Progress Report

Date of Award (MM/DD/YYYY):

Date of Report (MM/DD/YYYY):

Principal Investigator(s) & Affiliation(s):

Title of Project:

A. Progress:

Please provide an update on your project by completing the following:

- 1) itemize each specific objective, aim, or hypothesis;
- 2) describe progress toward each objective, aim, or hypothesis, including any problems encountered, including delays;
- 3) describe any change in the study design or methods and provide an explanation for the change(s); and,
- 4) outline the goals for the remainder of the funding period.

B. Impacts: VCCIS places high importance on funding research that has an impact on clinically applicable, translational research in veterinary and comparative immunology. We kindly ask that you provide any information on the following items resulting from the work done so far in this project: research abstracts, manuscripts, continuing education presentations, trainee involvement, meetings attended, grants prepared, or any other items you wish to share.
